EXPERIENCE

- **Mid Fullstack Developer** Fulltime
Aviron Software (remote), USA
 - **Transformed an ASP.NET VB.net application to C# ASP.NET Core:** covering 60% of the product and incorporating five distinct user roles. This updated version powers a mobile application with over 1,000 downloads on both the Play Store and App Store.
 - **Developed foundational integration tests:** with 70% coverage, significantly enhancing the reliability and robustness of the application.
 - **Managed a MERN stack web application for selling sheds:** overseeing 732 sellers and listing 7,000 products, as well as a web application for real estate sales. These efforts streamlined the user experience and boosted sales.
 - **Executed the successful launch of an MVP product:** for a customer, enabling them to validate their concept and secure funding for further development.
- **Fullstack .Net Developer** Fulltime
Zoobook LLC System (remote), New Jersey, USA
 - **Successfully maintained the ONC certification:** for the organization, ensuring compliance with healthcare IT standards and enhancing the organization's credibility.
 - **Created the 170.315(b)(10) Electronic Health Information (EHI) Export feature:** adhering to the Office of the National Coordinator for Health Information Technology standards, improving data portability and interoperability.
 - **Designed, built, and maintained efficient, reusable, and reliable code:** leading to a 30% improvement in application performance and a reduction in technical debt.
 - **Resolved over 100 bug tickets and developed new features:** resulting in a 20% decrease in customer-reported issues and a significant enhancement in user satisfaction.
- **Fullstack Developer** Part-Time
Flying Donkey IT Service (remote), Queensland, Australia
 - **Developed fullstack web applications:** using Angular, React, and .Net Core.
 - **Refactored code and supported senior developers and the director of engineering:** to meet deadlines, reducing CPU usage by 20%.
 - **Contributed to various projects:** including a banking application and automated technology solutions for recruitment agencies, as well as a payment system project enabling clients to pay different bills.
- **Junior Fullstack .Net Developer** Fulltime
Freelance (remote), Europe
 - **Contributed to software development, testing, and maintenance:** focusing on code efficiency and reliability.
 - **Fixed minor and UI bugs:** in the system.
 - **Developed and maintained eCommerce sites:** ensuring optimal performance and user experience.

PROGRAMMING SKILLS

- **Frontend:** HTML, CSS, Tailwind, JS, React, Angular, React-Native, JQuery
- **Backend:** C#, .NET Core, ASP.NET MVC, RESTful APIs, EF, Dapper
- **Databases:** MySQL, SQL Server
- **Tools:** AWS, SNS, Azure Blob, Azure App Service, xUnit, Git, Docker

PERSONAL PROJECTS

- **Dental EHR**
.Net Core, Angular, SQL Server, Layered Architecture, Git
 - **Developed a full stack web application:** to solve a business problem in a dental clinic.
 - **Implemented a progress note and appointment system:** to streamline clinic operations.
 - **Generated accurate invoices and bills:** for treatments, consultations, and procedures.

EDUCATION

- **Bachelor of Science in Computer Science**
Technological Institute of The Philippines
